

DI-AMONIUM PHOSPHATE

DAP 18-46-00 - Granular Fertilizer

Use:

DAP is a concentrated phosphate fertilizer. It can be used directly for soil fertilization or as raw material for blends.

Packaging

- In bulk
- 50 kg bags

Physical Characteristics:

- pH: 7.5
- Loose density: 0.90
- Packed Density: 1.02
- Physical State: Granule
- Appearance: Light brown / brown and black
-

Chemical Characteristics

- "Nitrogen: 18% (N)"
- "Phosphorus: 46% (P₂O₅)"
